

## Ruan Ruarie Salmon Fishing Directions

The beat lies close to the B8019, about 5 kilometres north of Pitlochry. There are several designated parking spaces situated close to the main road.

From the bottom of the beat up to the Viaduct Pool there is a major public path which runs close to the river, with smaller side paths down to the river.

From the Viaduct Pool upstream, access to the river is more difficult and, although there are paths, may involve a scramble over rocks.

Because of the difficult access to some sections, the beat may not be suited for less physically fit anglers.
